Analytic H2/N2 mixture transport at 20 us
NASA thermodynamics; no chemistry or diffusion; dt=20 ns
Independent analytic temperature error
Temperature L1 error (K)
Cells
none
conservativeState
blockConservative
central
hllc
Exact pressure equilibrium is disturbed
Pressure Linf error (Pa)
Cells
Conservation differs from solution accuracy
Absolute relative energy drift
Cells
nx128 endpoint pressure disturbance
Pressure minus exact value (Pa)
Position (mm)
